ECF version 3.1 in Training Database (posted January 2008)

In February 2008, the United States District Court, District of Minnesota ECF system will be upgraded to version 3.1. An announcement will be forthcoming. In light of this change, the ECF Training System has already been converted so you may notice some changed windows and menus when accessing this database. The process for filing on ECF will not change but procedures may need to be updated with the new ECF version.
